Independent Auditors' Report

To the Honorable Members of the Town Council
Town of Berryville, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of Town of Berryville, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of Town of Berryville, Virginia, as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of pension funding progress on pages 4-9, 44 and 45, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Town of Berryville, Virginia's basic financial statements. The supporting schedules and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supporting schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The statistical information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated November 6, 2014, on our consideration of Town of Berryville, Virginia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Town of Berryville, Virginia's internal control over financial reporting and compliance.

TOWN OF BERRYVILLE, VIRGINIA
MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Town of Berryville (the "Town") we offer the readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2014. Please read it in conjunction with the Town's basic financial statements, which follow this section.

Financial Highlights

The assets of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$30,835,603 (net position). Of this amount, \$4,980,144 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors.

The Town's total net position increased by \$267,153, of which the governmental activities accounted for a \$376,595 decrease and business-type activities accounted for a \$643,748 increase.

At the end of the current fiscal year, unrestricted net position for governmental activities was \$1,247,808 or 45.71% of the governmental activities expenditures less any capital outlay projects funded with bond proceeds.

The unassigned ending fund balance for the Town's general fund was \$1,254,889, an increase of \$3,068 over the prior year. This increase is due to cash flow associated with the VDOT street maintenance expenses in the prior year.

The Town's total debt decreased by \$173,292 (1.29%) during the current fiscal year. The key factor in this net decrease was the payment of General Obligation Bonds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide the readers with a broad overview of the Town's finances, in a manner similar to a private sector business. The *statement of net position* presents information on all of the Town's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of how the financial position of the Town may be changing. Increases in net position may indicate an improved financial position; however, even decreases in net position may reflect a changing manner in which the Town may have previously accumulated funds.

The *statement of activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the changes occur, regardless of the timing of related cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town include general government administration, public safety, public works, parks, recreation and culture, and community development.

Overview of the Financial Statements: (Continued)

Government-wide financial statements: (Continued)

The two Proprietary (business-type) Fund financial statements provide information on the activities in the Town's Water and Sewer Funds. Activities that are funded through the Water Fund include water system administration and billing, water treatment, and maintenance of treatment, distribution, and storage facilities. Activities that are funded through the Sewer Fund include sewer system administration and billing, wastewater treatment, and maintenance of treatment and collection facilities. User fees (water and sewer bills) and availability fees comprise the income for these funds.

The Town has no separate component units (e.g. school board, industrial development authority, etc.) that would be included in its government-wide financial statements.

The government-wide financial statements can be found on pages 10 through 12 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the Town can be divided into two categories: governmental funds and proprietary funds.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term affect of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

The basic governmental fund financial statements can be found on pages 13 through 16 of this report.

The Town maintains two *Proprietary Funds*. These *enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements, to account for its public utilities.

The basic proprietary fund financial statements can be found on pages 17 through 19 of this report.

The Town adopts an annual appropriated budget for its General Fund and its two Proprietary Funds. A budgetary comparison statement has been provided for these funds to demonstrate compliance with this budget.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 20 through 43 of this report.

Overview of the Financial Statements: (Continued)

Other information

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning budgetary comparisons for the general fund and the schedule of funding in progress relating to the Town's participation in its defined benefit pension plan.

Required supplementary information can be found on pages 44 and 45 of this report.

Government-wide Financial Analysis

As noted earlier, net position may, over time, serve as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities and deferred inflows of resources by \$30.8 million at the close of the most recent fiscal year. A large portion of the Town's net position (\$24.9 million, 80.60% of total) reflects its investment in capital assets (e.g. land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the Town's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided by other sources, since the capital assets themselves cannot be used to liquidate these liabilities (i.e. the Town's investment in capital assets are of a permanent nature as assets acquired are not generally sold or otherwise disposed of during their useful life).

The following table summarizes the Town's Statement of Net Position:

Town of Berryville, Virginia
Summary of Net Position
As of June 30, 2014

	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
Current and other assets	\$ 1,837,187	\$ 1,739,674	\$ 4,952,716	\$ 6,351,509	\$ 6,789,903	\$ 8,091,183
Capital assets	4,719,235	4,928,024	33,163,802	32,462,612	37,883,037	37,390,636
Total assets	\$ 6,556,422	\$ 6,667,698	\$ 38,116,518	\$ 38,814,121	\$ 44,672,940	\$ 45,481,819
Long-term liabilities outstanding	\$ 2,350,255	\$ 2,345,575	\$ 10,917,076	\$ 10,830,564	\$ 13,267,331	\$ 13,176,139
Other liabilities	71,994	96,988	208,304	1,636,167	280,298	1,733,155
Total liabilities	\$ 2,422,249	\$ 2,442,563	\$ 11,125,380	\$ 12,466,731	\$ 13,547,629	\$ 14,909,294
Deferred inflows of resources						
Unavailable revenue-property taxes	\$ 289,708	\$ 4,075	\$ -	\$ -	\$ 289,708	\$ 4,075
Net investment in capital assets	\$ 2,535,919	\$ 2,713,984	\$ 22,318,802	\$ 21,479,508	\$ 24,854,721	\$ 24,193,492
Restricted	60,738	-	940,000	-	1,000,738	-
Unrestricted	1,247,808	1,507,076	3,732,336	4,867,882	4,980,144	6,374,958
Total net position	\$ 3,844,465	\$ 4,221,060	\$ 26,991,138	\$ 26,347,390	\$ 30,835,603	\$ 30,568,450

A portion of the Town's net position is restricted for debt service in the enterprise funds (\$940,000, 3.05% of total) may be used to meet the Town's ongoing obligations to Virginia Resources Authority.

The remaining balance of unrestricted net position (\$5.0 million, 16.35% of total) may be used to meet the Town's ongoing obligations to citizens and creditors.

Government-wide Financial Analysis: (Continued)

At the end of the current fiscal year, the Town is able to report positive balances in all categories of net position, both for the Town as a whole, as well as for its separate governmental and business-type activities.

As noted previously, the Town's net position increased by \$267,153 during the current fiscal year, generally attributable to construction of the new wastewater treatment plant and an increase in user fees to finance that construction.

Town of Berryville, Virginia
Changes in Net Position
For the year ended June 30, 2014

Sewer fund	-	-	1,043,087	954,488	1,043,087	954,488
Total Expenses	\$ 2,913,719	\$ 2,814,133	\$ 1,815,562	\$ 1,871,063	\$ 4,729,281	\$ 4,685,196
Change in net position	\$ (376,595)	\$ (184,005)	\$ 643,748	\$ 1,493,186	\$ 267,153	\$ 1,309,181
Net position, beginning of year	4,221,060	4,405,065	26,347,390	24,854,204	30,568,450	29,259,269
Net position, end of year	\$ 3,844,465	\$ 4,221,060	\$ 26,991,138	\$ 26,347,390	\$ 30,835,603	\$ 30,568,450

Generally, net position changes are for the difference between revenues and expenses. A key element of this increase is the receipt of WQIF and VRA funds.

Business-type activities increased the Town's net position by \$643,748. Similar to how changes arise in the governmental activities, business-type activities also experience budgetary differences; however, as a public utility function comprises the Town's business-type activities there is more of a direct correlation to the revenues generated relative to the expenses incurred because of service demands. An increase in capital contributions made up of grant and loan proceeds and an increase in expenses, primarily construction in progress, contributed to the increase in net position.

Financial Analysis of the Town's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Fund: The focus of the Town's governmental fund is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Town's financing requirements. In particular *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's general fund reported a fund balance of \$1,390,627, an increase of \$63,806 in comparison to the prior year, due to cash flow involved in the VDOT street maintenance project and capital projects carried over from the prior fiscal year. Of this total amount, \$1,254,889 or 90.24% constitutes unassigned fund balance, which is available for spending at the Town's discretion. The Town is required to restrict \$60,738 of fund balance for debt service obligations related to the Joint Government Center. The remaining balance of \$75,000 is restricted for proffers revenue, which was received in prior years and not spent as of June 30, 2014.

Proprietary Funds: The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The total net position of the water and sewer funds was \$26,991,138. Unrestricted net position at the end of the year was \$3,732,336, a decrease of \$1,135,546, from last year's unrestricted net position due to wastewater treatment plant construction in progress.

General Fund Budgetary Highlights

During the fiscal year the Town's general fund revenue exceeded budget by \$197,374. Of this amount \$41,729 can be attributed to VDOT reimbursements for the street maintenance project. Also, revenues were higher than expected in general property taxes. Fiscal year 2014 governmental expenditures were below budget by \$571,239 largely due to the street maintenance project.

Capital Asset and Debt Administration

Capital Assets: The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2014, amounts to \$37,883,037 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, and machinery and equipment as well as construction in progress.

Capital assets, net of accumulated depreciation, are illustrated in the following table:

Town of Berryville, Virginia
Capital Assets (net of accumulated depreciation)
As of June 30, 2014

	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
Land	\$ 93,209	\$ 93,209	\$ 5,000	\$ 5,000	\$ 98,209	\$ 98,209
Construction in progress	-	-	28,706,335	27,776,682	28,706,335	27,776,682
Buildings & improvements	4,280,362	4,414,288	904,682	980,502	5,185,044	5,394,790
Infrastructure	72,119	83,761	2,804,571	2,880,183	2,876,690	2,963,944
Equipment	273,545	336,766	743,214	820,245	1,016,759	1,157,011
Total	\$ 4,719,235	\$ 4,928,024	\$ 33,163,802	\$ 32,462,612	\$ 37,883,037	\$ 37,390,636

Additional information on the Town's capital assets can be found in Note 5 on pages 29 and 30 of this report.

Capital Asset and Debt Administration: (Continued)

Long-term obligations: At the end of the current fiscal year, the Town had total outstanding obligations of \$13,267,331 and details are summarized in the following table:

Town of Berryville, Virginia
Outstanding Obligations
For the Year Ended June 30, 2014

	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
Long-term obligations:						
Lease revenue bond	\$ 2,183,316	\$ 2,214,040	\$ -	\$ -	\$ 2,183,316	\$ 2,214,040
General obligation bonds	-	-	10,845,000	10,983,104	10,845,000	10,983,104
Compensated absences	166,939	161,019	72,076	82,460	239,015	243,479
Total	\$ 2,350,255	\$ 2,375,059	\$ 10,917,076	\$ 11,065,564	\$ 13,267,331	\$ 13,440,623

Obligations associated with governmental activities decreased by \$24,804 in 2014. The general fund debt decrease was due to an increase in accrued absences netted against payments to the lease revenue bond.

The obligations associated with business-type activities decreased by \$148,488 in 2014 due to VRA loan payments.

The Town is subject to a statutory debt limitation. The legal debt margin is limited to 10% of total assessed value. The margin is computed as all bonded debt and long-term notes except for enterprise indebtedness over total value of taxed real property. The Town was in compliance with debt limitations as of June 30, 2014.

Additional information on the Town’s long-term debt and compliance can be found in Note 6.

Economic Factors and Next Year’s Budgets and Rates

Berryville serves as the center of commercial, residential, institutional, and industrial activity for Clarke County.

Both the Town and County are committed to preserving and enhancing Berryville’s historic downtown and maintaining Clarke County’s exquisite countryside. Preservation of our community’s charming character and natural beauty has required extraordinary effort and a high level of cooperation between the Town and County.

The Town experienced a slight growth in real property assessments in 2014 with an overall .43% increase. Preliminary forecasts for 2015 assessments indicate continued moderate but positive growth.

For tax year 2014, the Town Council adopted a .136/\$100 real estate tax rate, an increase of 17.3%. The personal property rate was raised from \$1/\$100 to \$1.05/\$100, an increase of 5%. The machinery and tools tax rate increased 10.5% from \$1.168/\$100 to \$1.30/\$100.

The Town’s sewer rate was adjusted in fiscal year 2014 based on the Business Plan submitted to VRA in March of 2010. An increase of 13.63% (\$11.00 to \$12.50 TG) was effective July 1, 2010. An increase of 12% (\$12.50 to \$14.00 TG) was effective July 1, 2011. An increase of 10.71% (\$14.00 to \$15.50 TG) was effective July 1, 2012. The Town increased the rate 9.68% (\$15.50 to \$17.00 TG) effective July 1, 2013.

Requests for Information

This financial report is designed to provide a general overview of the Town’s Finances for all of those with an interest in the government’s finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Town Manager, Town of Berryville, 101 Chalmers Court, Suite A, Berryville, Virginia 22611.

Balance Sheet
 Governmental Funds
 As of June 30, 2014

	<u>General Fund</u>
Assets:	
Cash and cash equivalents	\$ 1,424,273
Receivables (net of allowance for uncollectibles):	
Taxes including penalties	378,168
Accounts	20,484
Due from other governments	16,983
Restricted assets:	
Cash and cash equivalents	<u>60,738</u>
Total assets	<u>\$ 1,900,646</u>
Liabilities:	
Accounts payable	\$ 56,280
Accrued liabilities	11,961
Due to other funds	<u>63,459</u>
Total liabilities	<u>\$ 131,700</u>
Deferred Inflows of Resources:	
Unavailable revenue-property taxes	<u>\$ 378,319</u>
Fund Balance:	
Restricted for proffers	\$ 75,000
Restricted for debt service	60,738
Unassigned	<u>1,254,889</u>
Total fund balance	<u>\$ 1,390,627</u>
Total liabilities, deferred inflows of resources and fund balance	<u>\$ 1,900,646</u>

The accompanying notes to financial statements are an integral part of this statement.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position
As of June 30, 2014

Total fund balances for governmental funds (Exhibit 3)	\$	1,390,627
Total net position reported for governmental activities in the statement of net position is different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:		
Land	\$	93,209
Depreciable capital assets, net of accumulated depreciation		<u>4,626,026</u>
Total capital assets		4,719,235
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.		(3,753)
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets are offset by unavailable revenues in the governmental funds and thus are not included in the fund balance. Those assets consist of:		
Unavailable revenue-property taxes		88,611
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.		
Compensated absences	\$	(166,939)
Bonds payable		<u>(2,183,316)</u>
Total long-term liabilities		<u>(2,350,255)</u>
Total net position of governmental activities	\$	<u><u>3,844,465</u></u>

The accompanying notes to financial statements are an integral part of this statement.

Statement of Revenues, Expenditures, and Changes in Fund Balances
 Governmental Funds
 Year Ended June 30, 2014

	<u>General Fund</u>
Revenues:	
General property taxes	\$ 941,675
Other local taxes	770,294
Permits, privilege fees and regulatory licenses	28,716
Fines and forfeitures	31,710
Revenue from use of money and property	46,912
Charges for services	14,389
Miscellaneous	52,424
Intergovernmental revenues:	
Commonwealth	898,781
Federal	8,691
	<u> </u>
Total revenues	\$ <u>2,793,592</u>
Expenditures:	
Current:	
General government administration	\$ 811,097
Public safety	676,255
Public works	885,330
Parks, recreation, and cultural	7,135
Community development	126,914
Capital outlay	74,505
Contingency	27,074
Debt service	121,476
	<u> </u>
Total expenditures	\$ <u>2,729,786</u>
Excess (deficiency) of revenues over expenditures	\$ <u>63,806</u>
Net change in fund balances	\$ 63,806
Fund balances at beginning of year	<u>1,326,821</u>
Fund balances at end of year	<u>\$ <u>1,390,627</u></u>

The accompanying notes to financial statements are an integral part of this statement.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
Year Ended June 30, 2014

Net change in fund balances - total governmental funds (Exhibit 5) \$ 63,806

Governmental activities report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which the capital outlays exceeded depreciation in the current year.

Capital outlay	\$	52,736	
Depreciation expense		<u>(261,525)</u>	(208,789)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. The change in unavailable property taxes is reported as revenues in the governmental funds. (256,468)

The issuance of long-term debt (e.g. bonds, leases, notes payable) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Details of this item consist of principal retired on long-term debt. 30,724

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. The following is a summary of items supporting this adjustment:

Change in compensated absences	\$	(5,920)	
Change in interest payable		<u>52</u>	<u>(5,868)</u>
Change in net position of governmental activities			\$ <u><u>(376,595)</u></u>

The accompanying notes to financial statements are an integral part of this statement.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Narrative Profile:

Town of Berryville, located in central Clarke County, Virginia, approximately 60 miles west of Washington, D.C., was chartered in 1798. The town has a population of 4,185 and a land area of approximately 1.8 square miles.

Town is governed under the Council-Manager form of government. The Town engages in wide ranges of municipal services including general government administration, public safety, public works, parks, recreation and cultural and community development. Judicial administration, education, fire, library, health and welfare services are provided by Clarke County.

The financial statements of Town of Berryville, Virginia have been prepared in conformity with specifications promulgated by the Auditor of Public Accounts (APA) of the Commonwealth of Virginia, and the accounting principles generally accepted in the United States as specified by the Governmental Accounting Standards Board. The more significant of the Town's accounting policies are described below.

A. Financial Reporting Entity

Management's Discussion and Analysis: Accounting principles require that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of "Management's Discussion and Analysis" (MD&A). This analysis is similar to the analysis the private sector provides in their annual reports.

Government-wide Financial Statements: The reporting model includes financial statements prepared using full accrual accounting for all of the government's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and costs of providing services each year, not just those received or paid in the current year or soon thereafter.

Statement of Net Position: The Statement of Net Position is designed to display the financial position of the primary government (government and business-type activities) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Position and report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories: 1) net investment in capital assets; 2) restricted; and 3) unrestricted.

Statement of Activities: The government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Fund Financial Statements: Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

A. Financial Reporting Entity (Continued)

Budgetary Comparison Schedules: Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The Town and many other governments revise their original budgets over the course of the year for a variety of reasons. The budgetary comparison schedules present the Town's original budget to the current comparison of final budget and actual results for its major funds.

Accounting principles generally accepted in the United States require financial statements to present the primary government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations and so data from these units are combined with data of the primary government. The Town has no component units that meet the requirements for blending. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide statements to emphasize they are legally separate from the primary government. The Town does not have any discretely presented component units.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The focus is on both the Town as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds (by category) and the component units, if applicable. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information. The Town generally first uses restricted assets for expenses incurred for which both restricted and unrestricted assets are available. The Town may defer the use of restricted assets based on a review of the specific transaction.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, community development, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (public safety, public works, community development, etc.) or a business-type activity. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues. The Town does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

B. Government-wide and Fund Financial Statements (Continued)

Internal service charges, if applicable, are eliminated and the net income or loss from internal service activities is allocated to the various functional expense categories based on the internal charges to each function.

In the fund financial statements, financial transactions and accounts of the Town are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The fund statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile the fund financial statements to the governmental column of the government-wide financial statements.

Proprietary fund operating revenues consist of charges for services and related revenues. Nonoperating revenues consist of contributions, grants, investment earnings and other revenues not directly derived from the providing of services.

The accompanying financial statements are prepared in accordance with pronouncements issued by the Governmental Accounting Standards Board. The principles prescribed by GASB represent generally accepted accounting principles applicable to governmental units.

The following is a brief description of the specific funds used by the Town in 2014.

- A. *Governmental Funds* - Governmental Funds account for the expendable financial resources, other than those accounted for in Proprietary and Fiduciary Funds. The Governmental Funds utilize the modified accrual basis of accounting where the measurement focus is upon determination of financial position and changes in financial position, rather than upon net income determination as would apply to a commercial enterprise. The individual Governmental Fund is:

General Fund - The General Fund is the primary operating fund of the Town. This fund is used to account for and report all financial resources except those required to be accounted for and reported in another fund. Revenues are derived primarily from property and other local taxes, state and federal distributions, licenses, permits, and interest income. The General Fund is considered a major fund for reporting purposes.

- B. *Proprietary Funds* - Proprietary Funds account for operations that are financed in a manner similar to private business enterprises. The Proprietary Funds utilize the accrual basis of accounting where the measurement focus is upon determination of net income, financial position, and cash flows. Proprietary Funds consist of the water and sewer enterprise funds.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

1. *Governmental Funds* - Governmental funds utilize the modified accrual basis of accounting under which revenues and related assets are recorded when measurable and available to finance operations during the year. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts, except that property taxes not collected within 45 days after year-end are reflected as deferred inflows of resources. Sales and utility taxes, which are collected by the State or utilities and subsequently remitted to the Town, are recognized as revenues and receivables upon collection by the State or utility, which is generally in the month preceding receipt by the Town. Licenses, permits, fines and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of State and other grants for the purpose of funding specific expenditures, are recognized when measurable and available or at the time of the specific expenditure.

Expenditures, other than interest on long-term debt, are recorded as the related fund liabilities are incurred. Principal and interest on long-term debt is recognized when due except for amounts due on July 1, which are accrued.

2. *Proprietary Funds* - The accrual basis of accounting is used for the Enterprise Fund. Under the accrual method, revenues are recognized in the accounting period in which they are earned, while expenses are recognized in the accounting period in which the related liability is incurred.

D. Budgets and Budgetary Accounting

The following procedures are used by the Town in establishing the budgetary data reflected in the financial statements:

1. Prior to May 1, the Town Manager submits to the Town Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

D. Budgets and Budgetary Accounting (Continued)

4. The Appropriations Resolution places legal restrictions on expenditures at the department or category level. The appropriation for each department or category can be revised only by the Town Council. The Town Administrator is authorized to transfer budgeted amounts within departments.
5. Formal budgetary integration is employed as a management control device during the year for all funds.
6. All budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).
7. Appropriations lapse on June 30 for all Town funds unless they are carried forward by a resolution of Town Council.
8. All budgetary data presented in the accompanying financial statements reflect budget reviews as of June 30.

E. Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, cash and cash equivalents include all cash on hand and in banks, certificates of deposit, and highly liquid investments with original maturities of three months or less.

F. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advance to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

G. Allowance for Uncollectible Accounts

The Town calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance amounted to approximately \$28,921 at June 30, 2014 and is comprised of property taxes and water and sewer receivables.

H. Capital Assets

Capital outlays are recorded as expenditures of the governmental funds of the Town, and as assets in the government-wide financial statements.

The cost of normal maintenance and repairs that do not add value to the value of the asset or materially extend the asset’s life are not capitalized. It is the town’s policy to record capital assets with a cost greater than \$5,000 and an estimated useful life in excess of one year.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

H. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of assets constructed. The Town did not have any capitalized interest as of June 30, 2014.

Property, plant and equipment, and infrastructure purchases are stated at historical cost or estimated cost. Donated property is recorded at the prevailing market value at date of donation. Depreciation is recorded on capital assets on a government-wide basis or in the Proprietary Fund using the straight-line method and the following estimated useful lives:

Buildings and improvements	15-50 years
Infrastructure	20-39 years
Equipment	5-10 years

I. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J. Net Position

Net position is the difference between a) assets and deferred outflows of resources and b) liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, less accumulated depreciation, less any outstanding debt related to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position.

K. Net Position Flow Assumption

Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

L. Compensated Absences

The Town accrues compensated absences (annual and sick leave benefits) when vested. The amounts include all balances earned by employees which would be paid upon employee terminations, resignations or retirements.

M. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses.

N. Fund Equity

The Town reports fund balance in accordance with GASB Statement 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- *Nonspendable fund balance* - amounts that are not in spendable form (such as inventory and prepaids) or are required to be maintained intact (corpus of a permanent fund);
- *Restricted fund balance* - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- *Committed fund balance* - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;
- *Assigned fund balance* - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;
- *Unassigned fund balance* - amounts that are available for any purpose; positive amounts are only reported in the general fund.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

N. Fund Equity (Continued)

When fund balance resources are available for a specific purpose in more than one classification, it is the Town's policy to use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed.

Town Council establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by Town Council through adoption or amendment of the budget as intended for specific purpose (such as the purchase of capital assets, construction, debt service, or for other purposes).

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Town does not have any deferred outflows of resources as of June 30, 2014.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has one type of item that qualifies for reporting in this category. Under a modified accrual basis of accounting, unavailable revenue representing property taxes receivable is reported in the governmental funds balance sheet. This amount is comprised of uncollected property taxes due prior to June 30, 2nd half installments levied during the fiscal year but due after June 30th, and amounts prepaid on the 2nd half installments and is deferred and recognized as an inflow of resources in the period that the amount becomes available. Under the accrual basis, 2nd half installments levied during the fiscal year but due after June 30th and amounts prepaid on the 2nd half installments are reported as deferred inflows of resources.

P. Upcoming Pronouncements

The Governmental Accounting Standards Board has issued Statement No. 68, Accounting and Financial Reporting for Pensions; an amendment of GASB Statement No. 27. This Statement replaces the requirement of Statements No. 27 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of statements No. 27 and No. 50 remain applicable for pensions that are not administered as trusts or equivalent arrangements. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014. The Town believes the implementation of Statement No. 68 will significantly impact the Town's net position; however, no formal study or estimate of the impact of this standard has been performed.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 2—PROPERTY TAXES RECEIVABLE:

Property is assessed at its value on January 1. The Town bills and collects its own property taxes based on the assessed values provided by Clarke County. Real estate taxes are levied semiannually and are due June 5th and December 5th. Personal property taxes are levied annually and are due December 5th.

NOTE 3—DEPOSITS AND INVESTMENTS:

Deposits:

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the “Act”) Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized.

Investments:

Statutes authorize the Town to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, “prime quality” commercial paper and certain corporate notes, banker’s acceptances, repurchase agreements and the State Treasurer’s Local Government Investment Pool (LGIP). The Town had no investments at June 30, 2014.

NOTE 4—DUE FROM OTHER GOVERNMENTAL UNITS:

At June 30, 2014, the amount due from other governmental units was as follows:

	<u>Primary Government</u>
Commonwealth of Virginia:	
Sales tax	\$ 14,996
Fire fund program	1,987
Virginia Water Quality Improvement Fund	<u>571,171</u>
Total	<u>\$ 588,154</u>

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 6—LONG-TERM OBLIGATIONS: (Continued)

Details of the Town's long-term obligations are as follows:

Governmental Obligations:

Lease Revenue Bond:

\$2,327,000 Lease Revenue Bond issued May 2008, due in monthly installments of \$10,123 beginning June 2009 through May 2047, including interest at 4.125%. This lease revenue bond was issued through the Industrial Development Authority of Clarke County, Virginia, for purposes of funding construction of the Town's municipal building.

\$ 2,183,316

Accrued compensated absences

166,939

Total governmental obligations

\$ 2,350,255

Enterprise Obligations:

General Obligation Bonds:

\$11,750,000 General Obligation Revenue Bond Series 2010, issued March 2010 for purposes of funding new wastewater treatment plant, due in semi-annual installments of \$235,000 beginning February 2013 through August 2037 with no interest. The balance shown is total drawdowns to date.

\$ 10,845,000

Accrued compensated absences

72,076

Total enterprise obligations

\$ 10,917,076

NOTE 7—COMPENSATED ABSENCES:

In accordance with GASB Statement 16, *Accounting for Compensated Absences*, the Town has accrued the liability arising from outstanding claims and judgments and compensated absences. Town employees earn vacation and sick leave based upon length of service. The Town has outstanding accrued vacation pay totaling \$166,939 in the General Fund and \$72,076 in Enterprise Fund.

NOTE 8—PENSION PLAN:

A. Plan Description

Name of Plan: Virginia Retirement System (VRS)
Identification of Plan: Agent Multiple-Employer Pension Plan
Administering Entity: Virginia Retirement System (System)

All full-time, salaried permanent (professional) employees of public school divisions and employees of participating employers are automatically covered by VRS upon employment. Members earn one month of service credit for each month they are employed and they and their employer are paying contributions to VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as service credit in their plan.

Within the VRS Plan, the System administers three different benefit plans for local government employees - Plan 1, Plan 2, and, Hybrid. Each plan has different eligibility and benefit structures as set out below:

VRS – PLAN 1

- 1. Plan Overview** - VRS Plan 1 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 2. Eligible Members** - Employees are in VRS Plan 1 if their membership date is before July 1, 2010, and they were vested as of January 1, 2013.
- 3. Hybrid Opt-In Election** - VRS non-hazardous duty covered Plan 1 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 1 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and had prior service under VRS Plan 1 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 1 or ORP.

- 4. Retirement Contributions** - Members contribute up to 5% of their compensation each month to their member contribution account through a pre-tax salary reduction. Some school divisions and political subdivisions elected to phase in the required 5% member contribution; all employees will be paying the full 5% by July 1, 2016. Member contributions are tax-deferred until they are withdrawn as part of a retirement benefit or as a refund. The employer makes a separate actuarially determined contribution to VRS for all covered employees. VRS invests both member and employer contributions to provide funding for the future benefit payment.

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

VRS – PLAN 1 (CONTINUED)

5. **Creditable Service** - Creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.
6. **Vesting** - Vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members become vested when they have at least five years (60 months) of creditable service. Vesting means members are eligible to qualify for retirement if they meet the age and service requirements for their plan. Members also must be vested to receive a full refund of their member contribution account balance if they leave employment and request a refund.

Members are always 100% vested in the contributions that they make.

7. **Calculating the Benefit** - The Basic Benefit is calculated based on a formula using the member's average final compensation, a retirement multiplier and total service credit at retirement. It is one of the benefit payout options available to a member at retirement.

An early retirement reduction factor is applied to the Basic Benefit if the member retires with a reduced retirement benefit or selects a benefit payout option other than the Basic Benefit.

8. **Average Final Compensation** - A member's average final compensation is the average of the 36 consecutive months of highest compensation as a covered employee.
9. **Service Retirement Multiplier** - The retirement multiplier is a factor used in the formula to determine a final retirement benefit. The retirement multiplier for non-hazardous duty members is 1.7%. The retirement multiplier for sheriffs and regional jail superintendents is 1.85%. The retirement multiplier of eligible political subdivision hazardous duty employees other than sheriffs and regional jail superintendents is 1.7% or 1.85% as elected by the employer.
10. **Normal Retirement Age** - Age 65.
11. **Earliest Unreduced Retirement Eligibility** - Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit at age 65 with at least five years (60 months) of creditable service or at age 50 with at least 30 years of creditable service.

Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

VRS – PLAN 1 (CONTINUED)

- 12. Earliest Reduced Retirement Eligibility** - Members may retire with a reduced benefit as early as age 55 with at least five years (60 months) of creditable service or age 50 with at least 10 years of creditable service.
- 13. Cost-of-Living Adjustment (COLA) in Retirement** - The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.
- 14. Eligibility** - For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of creditable service, the COLA will go into effect on July 1 after one full calendar year from the retirement date.

For members who retire with a reduced benefit and who have less than 20 years of creditable service, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.

- 15. Exceptions to COLA Effective Dates** - The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:
- The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013.
 - The member retires on disability.
 - The member retires directly from short-term or long-term disability under the Virginia Sickness and Disability Program (VSDP).
 - The member is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
 - The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-in-service benefit. The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

VRS – PLAN 1 (CONTINUED)

- 16. Disability Coverage** - Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.7% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

- 17. Purchase of Prior Service** - Members may be eligible to purchase service from previous public employment, active duty military service, an eligible period of leave or VRS refunded service as creditable service in their plan. Prior creditable service counts toward vesting, eligibility for retirement and the health insurance credit. Only active members are eligible to purchase prior service. When buying service, members must purchase their most recent period of service first. Members also may be eligible to purchase periods of leave without pay.

VRS – PLAN 2

- 1. Plan Overview** - VRS Plan 2 is a defined benefit plan. The retirement benefit is based on a member's age, creditable service and average final compensation at retirement using a formula. Employees are eligible for VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- 2. Eligible Members** - Employees are in VRS Plan 2 if their membership date is on or after July 1, 2010, or their membership date is before July 1, 2010, and they were not vested as of January 1, 2013.
- 3. Hybrid Opt-In Election** - VRS Plan 2 members were allowed to make an irrevocable decision to opt into the Hybrid Retirement Plan during a special election window held January 1 through April 30, 2014.

The Hybrid Retirement Plan's effective date for eligible VRS Plan 2 members who opted in was July 1, 2014.

If eligible deferred members returned to work during the election window, they were also eligible to opt into the Hybrid Retirement Plan.

Members who were eligible for an optional retirement plan (ORP) and have prior service under VRS Plan 2 were not eligible to elect the Hybrid Retirement Plan and remain as VRS Plan 2 or ORP.

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

VRS – PLAN 2 (CONTINUED)

4. **Retirement Contributions** - Same as VRS Plan 1—Refer to Section 4.
5. **Creditable Service** - Same as VRS Plan 1— Refer to Section 5.
6. **Vesting** - Same as VRS Plan 1—Refer to Section 6.
7. **Calculating the Benefit** - Same as VRS Plan 1—Refer to Section 7.
8. **Average Final Compensation** - A member’s average final compensation is the average of their 60 consecutive months of highest compensation as a covered employee.
9. **Service Retirement Multiplier** - Same as Plan1 for service earned, purchased or granted prior to January 1, 2013. For non-hazardous duty members the retirement multiplier is 1.65% for creditable service earned, purchased or granted on or after January 1, 2013.
10. **Normal Retirement Age** - Normal Social Security retirement age.
11. **Earliest Unreduced Retirement Eligibility** - Members who are not in hazardous duty positions are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

Hazardous duty members are eligible for an unreduced retirement benefit at age 60 with at least five years of creditable service or age 50 with at least 25 years of creditable service.
12. **Earliest Reduced Retirement Eligibility** - Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.
13. **Cost-of-Living Adjustment (COLA) in Retirement** - The Cost-of-Living Adjustment (COLA) matches the first 2% increase in the CPI-U and half of any additional increase (up to 2%), for a maximum COLA of 3%.
14. **Eligibility** - Same as VRS Plan 1—Refer to Section 14.
15. **Exceptions to COLA Effective Dates** - Same as VRS Plan 1—Refer to Section 15.
16. **Disability Coverage** - Members who are eligible to be considered for disability retirement and retire on disability, the retirement multiplier is 1.65% on all service, regardless of when it was earned, purchased or granted.

Most state employees are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

VRS – PLAN 2 (CONTINUED)

16. Disability Coverage (Continued)

VSDP members are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. Purchase of Prior Service - Same as VRS Plan 1—Refer to Section 17.

HYBRID RETIREMENT PLAN

1. Plan Overview - The Hybrid Retirement Plan combines the features of a defined benefit plan and a defined contribution plan. Most members hired on or after January 1, 2014 are in this plan, as well as VRS Plan 1 and VRS Plan 2 members who were eligible and opted into the plan during a special election window. (See “Eligible Members”)

- The defined benefit is based on a member’s age, creditable service and average final compensation at retirement using a formula.
- The benefit from the defined contribution component of the plan depends on the member and employer contributions made to the plan and the investment performance of those contributions.
- In addition to the monthly benefit payment payable from the defined benefit plan at retirement, a member may start receiving distributions from the balance in the defined contribution account, reflecting the contributions, investment gains or losses, and any required fees.

2. Eligible Members - Employees are in the Hybrid Retirement Plan if their membership date is on or after January 1, 2014. This includes:

- State employees*
- School division employees
- Political subdivision employees*
- Judges appointed or elected to an original term on or after January 1, 2014
- Members in VRS Plan 1 or VRS Plan 2 who elected to opt into the plan during the election window held January 1-April 30, 2014; the plan’s effective date for opt-in members was July 1, 2014

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (CONTINUED)

3. *Non-Eligible Members - Some employees are not eligible to participate in the Hybrid Retirement Plan. They include:

- Members of the State Police Officers' Retirement System (SPORS)
- Members of the Virginia Law Officers' Retirement System (VaLORS)
- Political subdivision employees who are covered by enhanced benefits for hazardous duty employees

Those employees eligible for an optional retirement plan (ORP) must elect the ORP plan or the Hybrid Retirement Plan. If these members have prior service under VRS Plan 1 or VRS Plan 2, they are not eligible to elect the Hybrid Retirement Plan and must select VRS Plan 1 or VRS Plan 2 (as applicable) or ORP.

4. Retirement Contributions - A member's retirement benefit is funded through mandatory and voluntary contributions made by the member and the employer to both the defined benefit and the defined contribution components of the plan. Mandatory contributions are based on a percentage of the employee's creditable compensation and are required from both the member and the employer. Additionally, members may choose to make voluntary contributions to the defined contribution component of the plan, and the employer is required to match those voluntary contributions according to specified percentages.

5. Creditable Service

Defined Benefit Component - Under the defined benefit component of the plan, creditable service includes active service. Members earn creditable service for each month they are employed in a covered position. It also may include credit for prior service the member has purchased or additional creditable service the member was granted. A member's total creditable service is one of the factors used to determine their eligibility for retirement and to calculate their retirement benefit. It also may count toward eligibility for the health insurance credit in retirement, if the employer offers the health insurance credit.

Defined Contribution Component - Under the defined contribution component, creditable service is used to determine vesting for the employer contribution portion of the plan.

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (Continued)

6. Vesting

Defined Benefit Component - Defined benefit vesting is the minimum length of service a member needs to qualify for a future retirement benefit. Members are vested under the defined benefit component of the Hybrid Retirement Plan when they reach five years (60 months) of creditable service. VRS Plan 1 or VRS Plan 2 members with at least five years (60 months) of creditable service who opted into the Hybrid Retirement Plan remain vested in the defined benefit component.

Defined Contribution Component - Defined contribution vesting refers to the minimum length of service a member needs to be eligible to withdraw the employer contributions from the defined contribution component of the plan.

Members are always 100% vested in the contributions that they make.

Upon retirement or leaving covered employment, a member is eligible to withdraw a percentage of employer contributions to the defined contribution component of the plan, based on service.

- After two years, a member is 50% vested and may withdraw 50% of employer contributions.
- After three years, a member is 75% vested and may withdraw 75% of employer contributions.
- After four or more years, a member is 100% vested and may withdraw 100% of employer contributions.

Distribution is not required by law until age 70½.

7. Calculating the Benefit

Defined Benefit Component - Same as VRS Plan 1—Refer to Section 7.

Defined Contribution Component - The benefit is based on contributions made by the member and any matching contributions made by the employer, plus net investment earnings on those contributions.

8. Average Final Compensation - Same as VRS Plan 2—Refer to Section 8. It is used in the retirement formula for the defined benefit component of the plan.

9. Service Retirement Multiplier - The retirement multiplier is 1.0%.

For members that opted into the Hybrid Retirement Plan from VRS Plan 1 or VRS Plan 2, the applicable multipliers for those plans will be used to calculate the retirement benefit for service credited in those plans.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (Continued)

10. Normal Retirement Age

Defined Benefit Component - Same as VRS Plan 2—Refer to Section 10.

Defined Contribution Component - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

11. Earliest Unreduced Retirement Eligibility

Defined Benefit Component - Members are eligible for an unreduced retirement benefit when they reach normal Social Security retirement age and have at least five years (60 months) of creditable service or when their age and service equal 90.

Defined Contribution Component - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

12. Earliest Reduced Retirement Eligibility

Defined Benefit Component - Members may retire with a reduced benefit as early as age 60 with at least five years (60 months) of creditable service.

Defined Contribution Component - Members are eligible to receive distributions upon leaving employment, subject to restrictions.

13. Cost-of-Living Adjustment (COLA) in Retirement

Defined Benefit Component - Same as VRS Plan 2—Refer to Section 13.

Defined Contribution Component - Not Applicable.

14. Eligibility - Same as VRS Plan 1 and VRS Plan 2—Refer to Section 14.

15. Exceptions to COLA Effective Dates - Same as VRS Plan 1 and VRS Plan 2—Refer to Section 15.

16. Disability Coverage - Eligible political subdivision and school division members (including VRS Plan 1 and VRS Plan 2 opt-ins) participate in the Virginia Local Disability Program (VLDP) unless their local governing body provides an employer-paid comparable program for its members.

State employees (including VRS Plan 1 and VRS Plan 2 opt-ins) participating in the Hybrid Retirement Plan are covered under the Virginia Sickness and Disability Program (VSDP), and are not eligible for disability retirement.

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 8—PENSION PLAN: (Continued)

A. Plan Description (Continued)

HYBRID RETIREMENT PLAN (Continued)

16. **Disability Coverage (Continued)**

Hybrid members (including VRS Plan 1 and VRS Plan 2 opt-ins) covered under VSDP or VLDP are subject to a one-year waiting period before becoming eligible for non-work related disability benefits.

17. **Purchase of Prior Service**

Defined Benefit Component - Same as VRS Plan 1 and VRS Plan 2—Refer to Section 17.

Defined Contribution Component - Not Applicable.

The System issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for VRS. A copy of the most recent report may be obtained from the VRS website at <http://www.varetire.org/Pdf/Publications/2013-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

B. Funding Policy

Plan members are required by Title 51.1 of the Code of Virginia (1950), as amended, to contribute 5.00% of their compensation toward their retirement. All or part of the 5.00% member contribution may be assumed by the employer. Beginning July 1, 2012 new employees were required to pay the 5% member contribution. In addition, for existing employees, employers were required to begin making the employee pay the 5% member contribution. This could be phased in over a period up to 5 years and the employer is required to provide a salary increase equal to the amount of the increase in the employee-paid member contribution. In addition, the Town is required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the Code of Virginia and approved by the VRS Board of Trustees. The Town’s contribution rate for the fiscal year ended 2014 was 9.28% of annual covered payroll.

C. Annual Pension Cost

For fiscal year 2014, Town’s annual pension cost of \$137,043 was equal to the Town’s required and actual contributions.

Three-Year Trend Information for Town of Berryville

Fiscal Year Ending	Annual Pension Cost (APC) *	Percentage of APC Contributed	Net Pension Obligation
6/30/12	\$ 100,626	100%	-
6/30/13	135,666	100%	-
6/30/14	137,043	100%	-

* Includes employer contributions only

TOWN OF BERRYVILLE, VIRGINIA

Notes to Financial Statements
As of June 30, 2014 (Continued)

NOTE 8—PENSION PLAN: (Continued)

C. Annual Pension Cost (Continued)

The FY 2014 required contribution was determined as part of the June 30, 2011 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at June 30, 2011 included (a) an investment rate of return (net of administrative expenses) of 7.00%, (b) projected salary increases ranging from 3.75% to 5.60% per year for general government employees, 3.75% to 6.20% per year for teachers, and 3.50% to 4.75% for employees eligible for enhanced benefits available to law enforcement officers, firefighters, and sheriffs, and (c) a cost-of-living adjustment of 2.50% per year for Plan 1 employees and 2.25% for Plan 2 employees. Both the investment rate of return and the projected salary increases include an inflation component of 2.50%. The actuarial value of the Town's assets is equal to the modified market value of assets. This method uses techniques that smooth the effects of short-term volatility in the market value of assets over a five-year period. The Town's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis. The remaining amortization period at June 30, 2011 for the Unfunded Actuarial Accrued Liability (UAAL) was 30 years.

D. Funding Status and Funding Programs

As of June 30, 2013, the most recent actuarial valuation date, the plan was 80.47% funded. The actuarial accrued liability for benefits was \$4,646,092 and the actuarial value of assets was \$3,738,719 resulting in an unfunded actuarial accrued liability (UAAL) of \$903,373. The covered payroll (annual payroll of active employees covered by the plan) was \$1,454,461 and ratio of the UAAL to the covered payroll was 63.39%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability (AAL) for benefits.

NOTE 9—LITIGATION:

At June 30, 2014, the Town was involved in one matter of litigation involving the construction of the Wastewater Treatment Plant. It is reasonably possible that this matter may materially affect the Town's financial position in future years, but the amount and timing of the pending decision are not yet known as of the date of the audit report, November 3, 2014.

NOTE 10—DEFERRED/UNAVAILABLE REVENUE:

Deferred/Unavailable revenue represent amounts for which asset recognition criteria have been met, but for which revenue recognition criteria have not been met. Under the modified accrual basis of accounting, such amounts are measurable, but not available. Unavailable revenue totaling \$373,770 is comprised of the following:

Unavailable Property Tax Revenue - Unavailable revenue representing uncollected tax billings not available for funding of current expenditures totaled \$378,319 at June 30, 2014.

Prepaid Property Taxes - Property taxes due subsequent to June 30, 2014 but paid in advance by the taxpayers totaled \$4,549 at June 30, 2014.

Required Supplementary Information

Note to Required Supplementary Information:

Presented Budgets were prepared in accordance with Accounting Principles Generally Accepted in the United States of America.

Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Members of the Town Council
Town of Berryville, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns*, issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, and each major fund of Town of Berryville, Virginia, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Town of Berryville, Virginia's basic financial statements, and have issued our report thereon dated November 6, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Town of Berryville, Virginia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Town of Berryville, Virginia's internal control. Accordingly, we do not express an opinion on the effectiveness of Town of Berryville, Virginia's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Town of Berryville, Virginia's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
